Marking Guide COMP 3512 Assignment #2

Name: _____

/ 15 **Visual Design and Usability**

- *design*: data poorly laid out/formatted
- *design*: effort on home page
- *design*: is there alignment/contrast/consistency (weight/size/color) with labels/data?
- *design:* low / medium / high overall effort made in styling / layout / colors
- *design:* layout problems (columns too narrow, info not visible w/o scrolling)
- *usability + effort*: browse filtering, extra functionality
- *usability*: clickables should be obvious (looks like buttons or icons, cursor change)

/ 10 **Programming Design**

- *code quality:* reduces code duplication / monster function(s) need decomposition
- *code quality (AI alert)*: innerHTML, var, old JS, onClick, advanced content not in course
- *code quality:* fetch error handling | inefficient coding |
- *documentation*: where needed / thin / missing
- *documentation:* github readme quality / quantity / missing
- localStorage used | console errors

/ 10 **Header + Footer + Home + About**

- *Header (2)*: title, logo, menu (home|browse|about|cart)
- *Home (4)*: fulsome / sensible / minimal content
- *About (3)*: modal/dialog, credits, working github link, description
- *Footer (1)*: github link, sensible content

/ 28 **Browse View**

- *Filters (12)*: gender, category, size, colors, current filters displayed, remove one&all
- *Results (4)*: placeholder/image, title, price, link to single view, no match msg
- *Results (5)*: add-to-cart with toaster, additive (e.g., multiple categories + color)
- *Sort (7)*: name/price/category, default=name, preserves filter (2)

/ 20 **Single Product View**

- *Data (7)*: title/price/desc/material/size/color, image/placeholder
- *Cart (7)*: add to cart, quantity, toaster
- *Related Products (4)*: Reasonable Approach, placeholder/title/price/cart
- Breadcrumb (1) (bonus if links work)

/ 17 **Shopping Cart View**

- *Data (3)*: image/title/color/size/price/subtotal
- *Modification (5)*: quantity (can change), remove one, remove all (checkout)
- *Shipping (1)*: standard/express/priority
- *Destination (1)*: Canada/usa/international
- *Summary (2)*: merchandise/shipping/tax/total
- *Calculation (2)*: tax=Canada (no tax), shipping>500=free, tax mistake for US/Int
- *Calculation (3):* Standard ($10, $15, $20), Express ($25, $25, $30), Priority ($35,$50,$50)

_____ **Deductions**

- late or missing resources | using external JavaScript library
- hosting url not sent / github repo info not provided
- AI alert: substantial -50%, major -25%, noticeable -10%

_____

/ 100 **Total Mark**
